

Ring Sizing

If you already have a ring that perfectly fits but are unsure of its size, then we have a downloadable chart which will determine the correct ring size for you.

1. Print this document on A4 paper.
(Be sure to print at 100% and deselect 'fit to page')
2. Place the ring over the circles to the right.
3. The correct size will fill the inside of the ring without overlapping.

Internal Diameter

10 cm
